

Junior Platform for Stairmate SA-S and SA-3

Junior-Platform for children wheelchairs and other low constructed wheelchairs

The Junior Platform is an accessory designed to enhance the functionality and versatility of the Stairmate SA-S and Stairmate SA-3, which is a powered stair climber intended to assist individuals with mobility challenges.

This platform allows to accommodate wheelchairs that are too low or cannot be safely fixed due to it's design to the Stairmate SA-S/SA-3, making it easier to transport users up and down stairs.

Applications

- ◆ For wheelchairs with low cross pipes under their seat less than 200 mm
- ◆ For wheelchairs from 300 mm wheels and more

- ◆ **Durability:** Constructed from robust materials to withstand regular use and ensure long-term reliability.
- ◆ **Improved Mobility:** Allows users to remain in their wheelchairs, making transitions smoother and more comfortable.

Why buy the Junior Platform?

- ◆ **Enhanced Safety:** The platform provides a secure base for the wheelchair, ensuring stability and safety during stair navigation.
- ◆ **Versatility:** It can accommodate various wheelchair sizes and types, enhancing the usability of the Stairmate SA-S/SA-3 for different users.
- ◆ **Ease of Use:** Designed for quick attachment and detachment, the platform simplifies the process of preparing the Stairmate for use.

About us

ESL Services provide the most comprehensive range of evacuation chairs and stairclimbers to improve safety when getting people in and out of buildings. Important - people have different needs and therefore require different choices.
